Hospitals

Senior Living Homes
RV's
Hotel Rooms
Offices
Smoking Areas
Garbage Storage Rooms

Airports
Locker Rooms
Daycares
Spas
And many other
locations...

Right Outside (Fold-in) Panel

Harnessing nature's most reliable and free power source – Gravity – we've designed a commercial air-freshener refill system that'll make your company's bottom line absolutely smile.

YES. Gravity dispensers and refills have been available for quite some time – but none compare, as you'll soon see, to the G-Force Ambient 60 and G-Force V-PLUS 30 refills.

Using the revolutionary and patented G-Force Technology system all G-Force refills are completely self-contained. There are no multiple or moving parts. And no liquids to measure or spill.

Your service technician just pops a refill into our new *Aeon* Modular Dispenser, presses the charging button on top of the refill, closes the lid on the dispenser – and, presto, he's done!

Servicing another brand name dispenser at your client's location? No problem!

We've designed the G-Force Ambient 60 and G-Force V-PLUS 30 refills to fit, just as quickly and just as easily, into most brand name dispensers already on the market (*Contact us for a list of easily adaptable off-brand dispensers.*)

Save Time... Save Money... Increase Your Profits with...

The G-Force Air Freshener Technology System

“At Air-Scent International our goal has always been to provide you with best quality products at the lowest possible cost so your company will have the highest possible return on your investment.”

Inside Left Panel

You'll attract more clients, and service those clients without adding employees or hours to your payroll, when you use...

The G-Force Ambient 60 Refill

A Simple Technology, Easy to Service *and...* **Priced 25% Less than most competing refill systems**

Packaged in a tamper-evident wrapper the G-Force Ambient 60 is the first and only sealed and fully self-contained gravity-based refill.

- Your service technicians will never need to measure, pour or fiddle with multiple and messy refill components when servicing your clients with the G-Force Ambient 60.
- They'll just pop the worry-free refill into an *Aeon* or similar dispenser, press down on the charging button and - *presto* - they're done in 10 seconds flat!
- Because the G-Force Ambient 60 Refill is fully self-contained with no moving or exposed parts — there's never a need for costly and time-wasting clean ups.
- And because the G-Force Ambient 60 Refill is gravity driven your technicians will never need to replace dead batteries, fuel cells or broken motorized fans.
- PLUS, The G-Force Ambient 60 Refill contains no propellants, is fully recyclable and environmentally friendly.

Efficient, Long Lasting and Pleasingly Fragrant

The G-Force Ambient 60 Refill is designed to destroy odors, freshen the air, and provide area scent conditioning for a Full 60 Days.

- The G-Force Ambient 60 Refill's uses our patented Capillary Distribution System to deliver a precise amount of fragrance to the specially designed dispersal wick at time-regulated intervals.
- There's never a chance of an over-pour and resulting spill, because there's no drip pan in the G-Force Ambient 60 refill — so you'll never receive an angry phone call from a disgruntled customer requesting an emergency service visit – at your expense.
- And because we have our own state of the art fragrance laboratory and production facility – manned by a team of highly experienced chemists, perfumers and technicians – we can offer you a vast and unrivaled array of standard and customized fragrances and scents.*
- We've also chemically engineered our fragrances and scents within the G-Force Ambient 60 Refill to evaporate at a slower rate, giving you a Full 60 Days of coverage – 40% longer-lasting than other refills. So you'll be able to schedule far less service visits by your technicians – saving you money AND increasing your profit.

- PLUS, we've also increased the effective scent coverage area up to 6,500 cubic square feet – easily destroying odors in a large room measuring a massive 20x30 feet with a 10 foot high ceiling!

**Contains the patented Metazene Odor-Trapping Formula*

Center Inside Panel

Introducing the space-age design and the patented stream-through ventilation of the revolutionary...

Aeon Modular Dispenser

Style and Design Finally Meets Incomparable Function

The *Aeon* (pronounced *eon*) Modular Dispenser is so compact - giving it a much smaller footprint – it requires far less wall space than competing dispensers. So when wall space is at a premium – this is the dispenser your customers will definitely want.

And the Aeon Dispenser is so sleek and stylish – it's actually a pleasure to look at. And that's yet another benefit your customers will love!

PLUS, the ingenious key-locking system keeps vandals out, and also prevents incidental tampering – another feature your customers will love – because they'll experience far fewer replacement expenses!

Best of all – the *Aeon* Modular Dispenser – part of the G-Force Technology System – easily and quickly converts from a “passive 60-day fragrance dispenser” using the G-Force Ambient 60 Refill to an even more powerful “fan-diffused dispenser” – without ever removing the *Aeon* Modular Dispenser from the wall!

Remember, the less time your service technicians spend at one location – the more money in your pocket!

Right Inside Panel

Need even more powerful odor control for those stubborn problem areas requiring a far greater measure of air-scrubbing strength – but at a still very reasonable low cost price?

Swap out your G-Force Ambient 60 Refill and replace it with the super-powerful...

G-Force V-PLUS 30 Refill

Technology and Chemistry Combining to Give You an Even More Powerful Odor Control System

For your customers who require double-strength odor control, either permanently or on an “as-needed” basis, the highly adaptable G-Force V-PLUS 30 Refill System will get the job done.

- The G-Force V-PLUS 30 Refill delivers more odor controlling fragrance – using the same standard or customized scents available with the G-Force Ambient 60 Refill – at precisely controlled – but more frequent intervals.*
- And combined with our patented, battery-powered, “easily snapped-in” Velocity Fan Module, the G-Force V-PLUS 30 Refill diffuses more fragrance with greater odor controlling output for a Full 30 Days.
- Together, the G-Force V-PLUS 30 Refill and the battery-powered Velocity Fan Module are an unbeatable team that controls unusually strong and stubborn odors in a coverage area of up to 6,500 cubic square feet!

Best of all – When you use the *Aeon* Modular Dispenser you can easily swap out the G-Force Ambient 60 Refill and replace it with the super-powerful G-Force V-PLUS 30 Refill and the battery-powered Velocity Fan Module in just ten seconds flat – without ever removing the *Aeon* Modular Dispenser from the wall!

**Contains the patented Metazene Odor-Killing Formula*

The Unrivaled Power of Metazene

Most air fresheners merely mask odors – piling a heavy smelling scent on top of an existing odor, without actually eliminating it. The result: the air becomes thick and stuffy as an entirely different smell or odor is created.

Metazene, on the other hand, gives you always clean, fresh, and odor-free air.

Metazene Doesn't Mask Odors - Metazene Destroys Odors Dead!

Developed by our own chemists, Metazene attacks odors at the molecular level – literally attaching itself to the odor particles and changing their electron configuration and effectively and permanently neutralizing their smell.

The odor molecules literally fall to the ground – where they die, evaporate and disappear. The result: air that is completely and cleanly odor free.

Both G-Force Ambient 60 and G-Force V-PLUS 30 contain the powerful odor-killer Metazene.
