

## Opening Page Copy

---

Dear Friends,

Turn these few pages and you will, like Alice in Wonderland, discover a new world...a never before seen world.

It is my world...a world of beauty and health...of youthful radiance and luxurious care.

And I want it to become your world, too.

Discover simple and easy applications...exquisite emulsions...pleasurable treatments...to restore, refresh and revitalize your skin.

Step through the looking glass...away from the dirt and grime, the hard lines and dry skin of day-to-day living. Be young, adorable, sexy, perky and sweet again.

Your face, your arms, your legs, indeed, your whole body will glow, shine and smile again...and everyone who sees you will smile back at you...as if, by permitting them to look upon your face, you will have done them a great and wonderful favor.

And whether you choose to share “our secret”...the choice of course is yours.

After all, sometimes, creating a little bit of jealousy can be delicious fun.

*Kate Somerville*

## Kate Somerville Bio Copy

---

### **Who is the real “Kate Somerville”...?**

Rather than read what someone else wrote about me; telling you whom I’ve studied with, how long I’ve been in business, what industry accolades I’ve received (it’s all so impersonal), I much prefer you hear about me – from me.

After all, I'm a real person...I have a life...a great life...thanks to a wonderful husband, a fulfilling career that every day allows me to help people like you become – and continue to be – beautiful, healthy and vibrant.

And though I have a long list of clients who are the “who’s who” of Hollywood, I want you to know I have just as many clients who are not glamorous movie and TV stars. They're businesswomen, housewives, international travelers, single women – all real people, fun loving people, and every one of them a dream client – near and dear to me.

Yes, I care about my clients, all my clients; how they look and how they feel about how they look. I care whether their skin is healthy and if they treat themselves right and do the right things to maintain their great looks.

Who am I? I am my clients.

And I invite you to become a client, a dear client of mine, too...

Thank you,

*Kate Somerville*
