

Who Doesn't Want Affordable And Accessible Healthcare? Please Raise Your Hand.

Silly question, I know. Of course we all want it. We all need it – and we need to have it now.

Peter Deutsch wants us, our parent's, grandparents, and our children to live the promise – the promise that we'll not be priced out of the healthcare system.

Peter wants to make sure that if, heaven forbid, we become chronically ill, prescription medicine will not require a second mortgage.

Peter wants us to have access to medical treatments that will not leave us...well, just wanting...and receiving nothing.

And yet, there's one word that can make affordable and accessible healthcare possible – it's the word "we." You and me. In order to get what *we* want – what *we* need – *we* need to make our voices heard.

Peter Deutsch wants us to be heard. He wants to take our voices into the halls of the US Senate. And for that reason if for no other *we* need to make sure that Peter Deutsch has a seat in the US Senate.

Peter needs our support, not tomorrow, but today – right now – so we can have what we need: truly affordable and accessible healthcare for all!

A well-known Chinese proverb states that a thousand mile journey begins with the very first step. Take that very important first step. Please click on the e-petition below to lend your much-needed support to Peter Deutsch's campaign for the US Senate.
